Presto Motors also have a new Mercury-Lincoln neon sign, but it has not been installed. When this is done, Didsbury is now blossoming out with quite a number of neon signs which certainly show up the business section of town during the dark hours.

WEATHER DELAYS RED CROSS CAMPAIGN

The Red Cross canvass in Didsbury is progressing slowly due to weather and road conditions and no official statement has so far been prepared by the chairman of the local campaign committee. However, generous donations have been received from many residents and when the town and district is finally covered it is expected that Didsbury will again come through with flying colors.

A list of country canvassers appeared in the last issue of The Pioneer. Below is a list of the town canvassers:

E. Coswell, George Law, Benji Brown, George Thring, A. Ester, George Gerlitz, Roy McArthur, George Smith, Max Wood, George Parsons, Al Brown, John Worthington, Harold Feeg and Mr. and Mrs. W.A. Austin.

CREMONA NEWS

The weather man is trying to play tricks on us these days. Truck drivers hauling props report the roads to be sheets of ice in spots and very muddy in others. Everyone had hopes of spring when the sun began to shine, but their hopes vanished when it turned cold again. However, the town boys have been riding their bicycles regardless of mud, ice or slush.

For Shantz has re-opened the butcher shop after cleaning it for alterations. The Butcher had received a new coat of paint and the counters have been switched around. With the new showcase-fridge he has installed, it looks really swell.

A box social and dance was held in the Cremona hall Friday last.

The boxes were well-made and looked very nice, and prices as high as five dollars were paid for some of them. After supper some of the Didsbury gang arrived to enjoy a good dance.

Ralph Boettger was a Friday supper guest with Ralph Waterstreet.

Among those seen in Calgary on Saturday were Evelyn Harting, Wilf Carter and Mr. and Mrs. Ken Bergson.

Both teachers and pupils are looking forward to the Easter holidays. Many pupils have already planned where they will spend the holidays.

A truck hauling mine props was held in the Cremona hall on Friday evening. The main event of the evening was the lifting of members of a chair by magic. Now when you enter the school you are rushed to a chair and lifted up by some unknown magic. It's foolish, but it's fun.

Mr. George Camps was a very surprised man when he entered his home on Sunday and found a party of friends waiting to celebrate his birthday. All of his children and grandchildren were present. The party was complete with turkey, trimmings and all.

Alex Hettinger was a Calgary visitor Monday.

Tommy Thompson visited with Mrs. Thompson in a Calgary hospital for a day last week.

The W.L. met at the home of Mrs. Patchel on Thursday. Pot holders in the form of large roses which were made by the members, were judged, and Mrs. Patchel's entry took the prize. Lunch was served by the hostess.

WE NEED WATER AND SEWERAGE

Just two years ago citizens of Didsbury voted almost unanimously to instal water and sewerage in Didsbury. Since that time material has been at a premium and the project has been delayed.

The time, however, has come when our water and sewerage project cannot be held back much longer and we understand that our Town Council plans to get started on the project as quickly as possible, the final delay being the outcome of the new water well at the butte, which, if satisfactory, will save the Town considerable money when putting in the water works.

Delaying of the water and sewerage system is actually costing the town not only loss of future citizens, but loss of extra tax revenue. Just recently three local farmers have purchased residences in Calgary because that city offered modern conveniences. Several other instances of a similar nature have occurred during the past year and will continue to happen until our town has modern facilities.

With increasing costs of schools and town administration the only hope that taxpayers have of stable or reduced taxes is to have more property on the assessment roll. This can only be accomplished by the building of more houses in Didsbury, and unless we provide modern conveniences these houses will not be constructed.

It is to the advantage of every property owner in town to do everything possible to assure the installation of water and sewerage in Didsbury at an early date.

IN THE LEGISLATURE

(By H. G. Hammell, M.L.A.)

The Debate on the Budget has concluded and the House has spent considerable time on the Committee as a whole, considering the budget estimates and bills presently before it. A number of resolutions have been introduced, including one moved by Mr. Ward of the Navy, and seconded by Mr. Taylor of Drumheller, requesting that the present basic \$75.00 per month total of disability pensions be increased to \$100.00 basic for veterans suffering 100% disability. The Dominion Government is proposing to increase the basic \$57.00 per month. It was argued that unskilled men are earning more than this, and that this was not fit pay for vets who have rendered such services as that given by our disabled.

Dr. W.W. Cross gave the House much information regarding his Department. He told the Assembly that Alberta now has 7.3 hospital beds per thousand patients, and that 7.5 is supposed to be the maximum number required. Hospital grants were increased last year from 45 cents to 70 cents a day; free maternity hospitalization last year cost \$700,000.00, nearly twice as many patients were operated on and treated for cancer as in any previous year. New buildings at the Red Deer mental institution will accommodate 150 patients, and more construction is anticipated this year at Ponoka and Oliver. 124,000 people were checked last year for tuberculosis, and 742 patients were treated. The number of new cases discovered was 17% less than in 1946, which shows that this disease is on the decrease. A new sanatorium will be built this year in Edmonton; the free blood transfusion service started in the summer of 1947, made possible by the Department of Health, the Red Cross and the citizens who donate blood, proved very successful. 6000 patients were given blood transfusions in six months; it will

necessitate 3,000 volunteer donors a month to keep up the necessary blood pool. A bill known as the Blue Cross Bill has been introduced; it will not interfere with the hospitalization services provided by the municipal hospitals, but will give citizens living in areas not covered, an opportunity to enter into the prepaid scheme. At the same time, it will give an opportunity for anyone else to enter into the prepaid scheme, which aims to give hospitalization anywhere in the world.

Changes in Vehicles and Highway Traffic Act now read: "That no vehicle, other than one used by a fireman, a policeman, or as an ambulance, can carry red light or flashing lights other than clearance or signalling lights." It establishes a speed limit of 55 miles an hour, and 45 miles an hour when lights are needed. Speed limits will be set in designated highway areas under construction or repair, and signs will be erected indicating the speed there. Any motor vehicle attempting to pass another vehicle must now stop, and when overtaking and other slow-moving vehicles must turn to the extreme right side of the travelled road and although cyclists and motorcycleists or horsemen may ride two abreast, upon being overtaken, they are required to travel in single file as near to the right side of the highway as conditions permit."

DEMAND FOR WHEAT
LIKELY TO CONTINUE

Because of the acute world shortage of bread grains, the prospects for the 1948 wheat crop in North America and Europe are all important. Fortunately good wheat crops are practically assured in Argentina and Australia, but at best supplies from these two countries and from the United States and Canada, and to a lesser extent from Russia, can only partially fill the immediate requirements of those countries whose people are re-

duced to a woefully small bread ration. It is only from the new crop that any considerable relief can be expected.

Production within the deficit countries themselves is somewhat better than a year ago. Winter cereal crops in Europe are progressing well and acreages are larger, though a cold wave could alter a crop outlook quickly.

In the United States crop reports are generally favorable and a wheat crop of one billion bushels or more is considered possible. Canada's spring wheat crop should go into the ground under favorable moisture conditions as autumn rainfall was generally above average.

HELP IN CASE OF ACCIDENT

In all cases of serious shock or injury, send for a doctor or ambulance at once. In the meantime, apply first aid promptly, but not hastily.

BLEEDING WOUNDS — Bleeding in spurts indicates severing of an artery. Steady flow indicates a vein has been cut. Bleeding from an artery should be stopped by applying pressure of the thumb, a compress or cloth pad over the artery at a point between the bleeding wound and the heart. In bleeding from a vein (steady flow), pressure should be applied on the side away from the heart. Where bleeding is not severe, a compress over the open wound should be sufficient. If bleeding is very severe, a tourniquet may be made by tying handkerchief, cloth, belt or necktie around the part over compress and using a small stick, pencil, or similar article with which to twist and tighten. Do not twist too hard, just enough to stop bleeding. Loosen every twenty minutes to let a little blood escape. Keep the part elevated.

SHOCK — Lay patient flat on back with head low, unless head is bleeding. Remove false teeth, gum or tobacco from mouth. Keep patient warm. Give stimulants such as aromatic spirits of ammonia in water, hot coffee, tea or water. Do not give stimulant to unconscious patients, or one who may have internal bleeding.

WEDDINGS

EVANS-PARSONS

A very lovely wedding was solemnized at Knox United Church, Didsbury, on March 17, when June Alberta, only daughter of Mrs. A. G. Parsons and the late George Parsons of Didsbury, was united in marriage to John Evans, third son of Mr. and Mrs. R. Evans of Trochut. The ceremony was performed by Rev. Whyte Smith before an altar decorated with pink and white streamers, and vases of pink and white tulips, daffodils and snapdragons.

The bride, given in marriage by her uncle, R. E. Lantz, was charming in a gown of white satin, fashioned on princess lines with a lace panel in the front, long lily point sleeves edged in lace, and a court train. Her full length veil was held by a Princess Elizabeth head-dress and she carried a bouquet of red roses and hyacinths. Her sandals were of gold mesh. Her only ornaments were a gold necklace with a large pearl setting and earrings to match, the gift of the groom. The bride's gift to the groom was a Masonic ring.

The bride was attended by her three nieces. The flower girl, Georgina Parsons, was dressed in floor-length yellow nylon with headress to match and carried a Victorian bouquet. The bridesmaids, Eileen and Norma Parsons, were gowned in pink net and blue net with matching headresses and no muffs, and carried bouquets of pink carnations. John Hobub acted as groomsman, and the ushers were Lloyd Jenkins and Clarence Cunningham.

Appropriate organ music was rendered by Mrs. Mabel Kaufman.

Miss Irene Sinclair sang two solos, the first, "Because," was sung just before the ceremony, and "Through the Years" during the signing of the register. Her accompanist was Miss Joyce Buh.

A reception for 75 relatives and friends was held in the Masonic Hall, which was decorated with pink and white streamers and white bells. The bride's table was centered with a three-tiered wedding cake. For the reception the bride's mother chose a brown crepe dress with fan tailed pelum, lined with brown and white check, and brown accessories. The groom's mother wore a dress of figured jersey with black accessories. Their corsages were red roses.

The toast to the bride was proposed by Rev. Whyte Smith, who remarked that it was unusual to find a Scotsman proposing a toast to an English girl marrying a Welshman on St. Patrick's Day. The groom responded appropriately to the toast.

Out of town guests included Mr. and Mrs. Evans and David of Trochut, Bill Roach and Mr. and Mrs. M. Dowell of Trochut, the sister of the bride, Mrs. Norma Bennie and son Sandy, of Edmonton; Mrs. Ethel Evans, sister-in-law of the groom, and daughter Glynis, also of Edmonton, and Mr.

Mr. and Mrs. J. Howton and Mrs. Alex Moore were Calgary visitors over the week end at the home of Mrs. C. B. Moore.

Mr. Fyten bulldozed out the valley road west of the Bear Creek bridge on Wednesday.

and Mrs. James Callie of Crossfield.

The happy couple left for a honeymoon at Calgary and Banff, then bridle travelling in a taupe English wool gabardine suit and winter white hat with brown and grey lizard accessories, and carrying a brown mouton coat. Her horseshoe corsage was of talisman roses.

Upon their return Mr. and Mrs. Evans will make their home in Didsbury.

BRITISH COMMONWEALTH AND EMPIRE TAKE ON NEW LOOK

Since the end of the war we have seen many changes in the British Commonwealth and Empire, as that world-wide organization of nations and peoples takes on a new style more in keeping with modern times and conditions.

One of these changes was the recent inauguration of the Federation of Malaya. This represents a substantial advance in the political development of that country as it provides for increased co-operation between the rulers of the native states and the central government. Provision has also been for greater participation in the government of the country by the various native elements and racial groups among the population. Singapore remains a separate Crown colony, while the Federation comprises the British territories formerly included in the postwar Malayan Union, with the exception of Singapore Island. This new government and administrative machinery has been planned for some time as it was generally agreed that the Malayan Union represented little more than a temporary post-liberation arrangement.

FALLEN TIMBER ITEMS

About thirty people were present at a road meeting held in the Fallen Timber school on Saturday, March 13. The meeting was held to hear the reports from the delegation which had been sent to interview and present a signed petition to Mr. Graham, chief road engineer, and Mr. Hammell, M.L.A. The petition called for the high grading and graveling of the main road from the edge of the municipality west to the range line, a distance of six miles. The delegation, consisting of Mr. W. Dick and Mr. J. Cooper, reported that Mr. Graham received the petition favorably and assured them that the sum of \$5,000 would be set aside for the purpose.

Mr. J. Cooper and Mr. Hone were Didsbury visitors Tuesday.

Glen and Jimmy Cooper attended the play put on by Western Canada College in Calgary on Wednesday.

Mr. and Mrs. J. McGaffin and family attended the Grand Opening of the Didsbury Memorial Arena on Friday.

Mr. and Mrs. J. Howton and Mrs. Alex Moore were Calgary visitors over the week end at the home of Mrs. C. B. Moore.

Mr. Fyten bulldozed out the valley road west of the Bear Creek bridge on Wednesday.

Wife: "How can we estimate our cost of living?"

Husband: "That's simple; take our income and add 30 per cent."

"Good morning, doctor. I just dropped in to tell you how much I benefited from your treatments."

"But you are not one of my patients."

"No, but my uncle was and I'm his heir."

UNITED MISSIONARY CHURCH CONFERENCE IN DIDSBURY

WALTHER LEAGUE MEETS
AT REDEEMER CHURCH

The regular Walther League meeting of Redeemer Lutheran Church was held on Tuesday, March 16, with Rev. For. conducting the opening service. Walter Artman then led the group in the discussion of the topic, "Living Christ. To My Neighbor". It was shown that the church plays an important part in every neighborhood; that each Christian must be an evangelist; and that the congregation must not rest till Christ reigns in the community. Arthur Jans volunteered to lead the topic next month, his subject being, "When I Worship".

During the business session it was decided to order community song books for the League. Since the new shuffleboard diagram had been laid out, most of the Leagues took a hand at this game, which resembles curling very much. The League game contest got under way. The meeting closed with luncheon served by Mildred and Walter Artman.
